

US DOE To Provide Program Updates

[The 3rd Annual Energy Services Coalition Market Transformation Conference](#) includes two panels focused on US Department of Energy program efforts. First up is a session highlighting a new DOE led initiative with industry and stakeholders to update the standardized ESPC contract documents. In 2006, the Energy Services Coalition demonstrated the importance of standardized documents in contributing to the speed and scale of ESPC project implementation across the country.

A second session will focus on the efforts of DOE's FEMP program including the roll-out of its new eProject Builder (ePB) Database.

Speakers include:

Anna Garcia, Director, US DOE, Weatherization and Intergovernmental Programs, Office of Energy Efficiency and Renewable Energy

Tim Unruh, Program Manager, US DOE, Federal Energy Management Program

Peter Larsen, Senior Engineering Associate, Lawrence Berkeley National Laboratory

Don't miss out -- attendance is limited so [register](#) today.
