## 4th Annual ESC Conference Session #3: Getting customers to want to do projects

The 4th Annual Energy Services Coalition Market Transformation Conference (Sept 1-2) includes a panel from our host ESC Chapter (North Carolina) that explores how the chapter members works together to educate end-use clients on the use of performance contracting as an option for building owners to acquire and finance building energy upgrades.

Through the collaborative efforts and diverse knowledge of the Chapter's public and private members, these efforts have resulted in projects in all types of facilities in every market segment.
